About Evership

Rock band Evership is the conceptualization of composer, multi-instrumentalist and producer/engineer Shane Atkinson, along with lead vocalist Beau West. Few recent acts have made a bigger splash than Evership in the world of modern art/progressive or symphonic rock. Their impactful 2016 self-titled album catapulted them to the forefront of the rock world. This led to mainstage performances at the largest of US Art/Prog rock festivals RoSFest and ProgStock and over 50 glowing national and international reviews and interviews. Each successive album has been honored in the yearly "Best of's" by critical reviewers. The response to *The Uncrowned King - Act 1* was astounding. Highland (Issue #108) hails Evership as "firmly establishing themselves in the Progressive American Landscape" and UK's ProgRadar sites "Evership is the new face of American Prog".
